

Plot Attributes ackleyFuncntDummyCase

August 12, 2019

Statistics for ackleyFuncntDummyCase attributes. The following are the attributes that go into the making of the plot **x-y-fAckley**:

The following have a contribution to χ_G^2 corresponding to:

$f_{Ac}(x, y)$ with test mean, experimental StdDev, and theoretical StdDev:

- $f_{Ac}(x, y)$ Test Mean : 0
- $f_{Ac}(x, y)$ Expedimental Standard deviation : 0.5
- $f_{Ac}(x, y)$ Theoretical Standard deviation : 0.5

The following have a hard cut corresponding to:
